

Kalkitech Press Release

Kalkitech undergoes a rebranding iteration

Bangalore, India, November 8, 2010

Kalkitech has undergone a major **rebranding iteration** to enhance the value that we offer to our customers.

Our communication solutions have been rebranded as “**SYNC**” suite of products. The **SYNC family** includes the following:

1	Field level Gateways for protocol and IO solutions SYNC 1000,2000,3000 SYNC OEM	<ul style="list-style-type: none"> • Hardware protocol-in-a-box solutions • Any-to-any protocol conversions • Upto 16-channel multi-protocol data concentrator/converter. • OEM module- to be embedded for standard substation, smart grid and metering protocols
2	Data Center level Data Acquisition solutions: SYNC 4000, 5000 SYNC OPC Addins	<ul style="list-style-type: none"> • Front End Processors • 1000-PMU Phasor Data Concentrators • ICCP Bridge servers • AMR/AMI/AMM systems • OPC Servers for strap-on protocol Data Acquisition solutions – DLMS Explorer
3	Enterprise level connectivity solutions: SYNC 6000	<ul style="list-style-type: none"> • Process data/model exchange solutions based on an Enterprise Integration Bus • Provides high QoS publish/subscribe mechanisms
4	Source Code Libraries and IP Licensing:	Field-proven source code libraries for a variety of open standards including: Modbus, DLMS/COSEM, DNP3, IEC-60870-5-101,103,104, IEC-61850, ICCP , as well as other proprietary protocols
5	SYNC Configuration Tools: SCL Manager	<ul style="list-style-type: none"> • Configure the substation as per IEC 61850 standards • Vendor independent software

Our intelligent and open decision support systems for **Optimization solutions in the power generation, transmission and distribution side** have been rebranded under “**ELTRIX**” suite of products. The modules are:

- **Plant Performance Monitoring & Analysis**
- **Economic Generation**
- **Generation Management**

The **ELTRIX** family consists of:

1	ELTRIX Lite	Field Level – Support for sub systems, primary equipments or a combination of equipments.
2	ELTRIX Professional	Operations Level – Support for power plants, transmission grids, distribution systems, etc.
3	ELTRIX Enterprise	Enterprise Level – Support for complete organization, individual business entities, business processes, assets, market interactions, etc.

We also provide services on **SCADA Consulting, Power System Studies; Protocol Consulting & Training; Protocol implementation, Substation automation, Industrial PEMS, SCADA engineering.**

About Kalkitech

KALKI Communication Technologies Limited (Kalkitech) was founded in 1998, with the vision of becoming the leading provider of standard-based Control, Communication and Computing solutions to OEMs, System Integrators and End–Users in the energy industry. Kalkitech solutions are successfully deployed in over 25 countries in 4 continents, across the full spectrum of the energy value chain. Kalkitech has also been empanelled as a SCADA/DMS consultant under the R-APDRP scheme of Government of India. Continuous innovation through research and development is at the core of Kalkitech's corporate philosophy aimed at creating a Whole New World of Intelligent Energy Systems.
