

## Kalkitech Press Release

### Kalkitech at ELECRAMA-2016

#### Bangalore between 13-17 Feb 2016

Kalki Communication Technologies Pvt. Ltd. (Kalkitech), a niche technology company providing communication and optimization solutions for the Smart Grid, will be attending the International Exhibition of Electrical and Industrial Electronics Industry - ELECRAMA-2016 in Bangalore. The event will be at the Bangalore International Exhibition Center (BIEC) from the 13th to 17th of February, 2016. Kalkitech will be found at **Stall H4X95, HALL: 4C**.

Organized by the Indian Electrical & Electronics Manufacturers' Association and supported by the Ministry of Power, Government of India, the event will focus on power transmission and distribution equipment, solutions and services. ELECRAMA 2016 gives Indian manufacturers a space to showcase their products and capabilities, providing a platform for domestic and international collaboration and allows global players to explore the opportunities offered by the Indian market. ELECRAMA sees the largest gathering of the power sector ecosystem, and brings together everyone from small scale manufacturers to the global majors.

Prasanth Gopalakrishnan, Kalkitech's CEO, had this to say: "We are very pleased to once again be a part of this prestigious event. As a company, we pride ourselves on our innovative offerings, and we will exhibit our SYNC range of communication products for Smart Grid solutions covering Grid Automation and Advanced Metering, and our Energy Optimization Eltrix software at ELECRAMA-2016".

#### **About ELECRAMA**

ELECRAMA is the world's largest confluence of the power transmission and distribution community. It features the biggest names in the global electrical T&D industry, to whom it serves as the perfect launch vehicle to introduce latest products and technology. ELECRAMA showcases products and technology through the entire voltage spectrum, from 220 V to 1200 kV, conforming to global standards and specifications. A large number of business and technology partnerships are also transacted during the 5 day period giving it a must attend event status amongst global exhibitions.

#### **About Kalkitech**

Kalki Communication Technologies Pvt. Ltd.(Kalkitech) is a smart grid solutions provider that helps power utilities across the globe improve operational efficiency. We provide standards-based technology solutions ranging from Advanced Energy Metering and Distribution Automation to Wide Area Monitoring, Substation Automation and Power Plant Optimization. Kalkitech invest extensively in research and development in several areas including power systems engineering, thermal engineering, control theory and communication and information technology to build cutting edge standards based communication and optimization solutions and products for the development of Smart Grid and energy efficiency technologies.

Kalkitech collaborates with leading utilities, OEMs and system integrators in the generation, transmission, distribution and renewable energy sectors to provide leading technology solutions, products and services. With strong partner networks across the globe, and customers in over 70 countries focusing on emerging markets, Kalkitech understands the regional challenges better and offers solutions that are flexible, scalable and secure.
