

## Kalkitech Press Release

### Kalkitech will be at the 46<sup>th</sup> CIGRE – 2016 in Paris, France

Bangalore, 16 June 2016

**Kalki Communication Technologies Pvt. Ltd. (Kalkitech)**, a leading technology company providing communication and optimization solutions for the Smart Grid, will be participating at the CIGRE – International Council on Large Electric Systems in stall N161, to be held at the **Palais des Congrès in Paris, France between 22 and 26 August, 2016.**

The 46<sup>th</sup> edition of CIGRE will bring together over 8500 trade visitors, CIGRE experts, and other decision makers from 90 different countries. CIGRE 2016 provides a unique opportunity to listen to contributions from industry experts and specialists through presentations, panel discussions, sessions and more. CIGRE 2016 also includes a Technical Exhibition, providing a great opportunity for visitors to discover new services and the latest technologies in the field of power systems. Kalkitech aims to continuously improve its offerings based on the latest industry trends and needs. Kalkitech will exhibit its innovative products and solutions including ASE 61850, ASE 2000, SCL Manager, IED Smart, SAM, spTsrv, SYNC 2000, SYNC 3000, SYNC 2101, SYNC 2111, SYNC 200 at the event.

“Kalkitech has been at the forefront of innovation in the smart grid and smart meters space for some time now. We’ve found that showcasing our products and solutions always elicits a great response. We’ve found that CIGRE offers a wonderful platform for us to meet and interact with clients and industry experts”, said Prasanth Gopalakrishnan, CEO Kalkitech.

#### About CIGRE

CIGRE was founded in 1921 and is an international non-profit association for the promotion of collaboration among global experts through sharing knowledge and joining forces to improve electric power systems of today and tomorrow. CIGRE brings together some 3,500 international experts and other decision makers from the electrical power industry. Its aim is to optimize existing equipment and power systems, design and deploy the Power System for the future, and respect the environment and provide access to information.

#### About Kalkitech

Kalkitech is a smart grid solutions provider that helps energy utilities across the globe achieve energy efficiency. They bring real-time and operational device and sensor data to the control center securely, help monitor & control utility assets and provide advanced analytics. Kalkitech's standards-based technology solutions help in legacy device and communication network migration, Distribution Automation, Wide Area Monitoring, Substation Automation, Advanced Metering and Power Plant Optimization.

Kalkitech has over 200 engineers across its four offices - Bangalore and Cochin in India, Sharjah in UAE, and Campbell, CA, USA. Kalkitech has partners and customers in over 50 countries.

Kalkitech has invested extensively in research and development in several areas including power systems engineering, thermal engineering, control theory and communication and information technology and cloud to build cutting edge and standards based offerings to their customers.
